Word to the Wise

Super Check Partial - Super Check Partial (SCP) describes a call sign database file, the [website it comes from](#), and the feature in many logging programs that uses the file. The file, originated by Jim, AD1C and Ken, K1EA, is a compilation of call signs that have appeared in recent contests, formatted in a way for easy computer searching. Popular logging programs that use this file will accept a few letters of a call sign in an entry window, and then show possible matches from the file. For example, with a recent SCP file, typing "1ABC" would show JQ1ABC, while typing "1DG" would show a list of call signs including K1DG, N1DG, OK1DG, W1DGL, JH1DGJ, OK1DGU, and JI1DGW. Searches are made of the letters as entered; some logging programs have a setting that will search for the letters entered in that order, with intervening letters. For example, "1DG" would also match "K1DOG." The file is updated periodically, so it is good practice to update it before a contest. The file should be used as an aid for what is copied, and NOT used to guess at call signs.
